

Control Panel - XP - "Basic Computer Info"

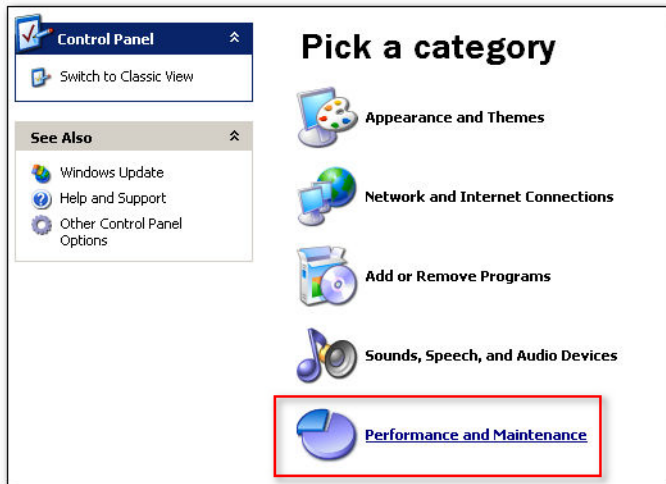

Control Panel - XP - “Basic Computer Info”

Goto the
TOOL Bar

Then Click
on Start

To get here

The screenshot shows the Windows XP Control Panel window titled "Control Panel". At the top, there is a "Switch to Classic View" button. Below that is a "See Also" section with three links: "Windows Update", "Help and Support", and "Other Control Panel Options". The main content area is titled "Pick a category" and lists five categories with icons: "Appearance and Themes", "Network and Internet Connections", "Add or Remove Programs", "Sounds, Speech, and Audio Devices", and "Performance and Maintenance". The "Performance and Maintenance" category is highlighted with a red rectangular border.

Control Panel - VISTA - "Basic Computer Info"

The screenshot shows the Windows Vista System and Maintenance window. The title bar reads "System and Maintenance" and "Welcome Center". The user name "DonW" is visible in the top left. The main content area displays system specifications: "Windows Vista™ Home Premium", "Intel(R) Core(TM)2 Duo CPU T5250 @ 1.50GHz", "1.99 GB RAM", "Mobile Intel(R) 965 Express Chipset Family", and "Computer Name: DONWLAP". A green button labeled "Show more details" is overlaid on the right side of the main content area. Below the main content is a section titled "1. Get started with Windows (15)" containing several task buttons: "View computer details", "Transfer files and settings", "Add new users", "Windows Anytime Upgrade", "Tablet PC Pen Training", and "Connect to the Internet". A tooltip is displayed over the "View computer details" button, containing the text: "View information about your computer including the model, manufacturer, processor, memory, and Windows Vista edition."
