**Seekway 3D LED Cube Amazes in Glorious Color Phasing**

## Bike for Power!

**Di-Cycle: bike over the land and the sea**

# Ecobutton

Simply attach the Ecobutton to your computer via a free USB port and every time you leave your PC, simply press the Ecobutton and it will put your computer into energy saving

**'ecomode'.**

Once you return press any key and your PC is instantly restored to where you left off.

## USB Wireless PC Lock

A small USB receiver plugs into a USB port, whilst you carry a discrete wireless radio transmitter "key".

When you move more than 2m away from your PC with the transmitter key, the wireless lock disables access to your computer, protecting your personal information from nosey colleagues!

When you return within range your PC resumes normal operation so that you can carry on working without a care in the world. Alternatively a password can be used to unlock the PC. It's that simple!
